Make Your Voice Heard

Join us for the opportunity to talk to local mental health professionals about the social and emotional challenges that prevent children and youth from succeeding in the classroom. We want to know what’s happening in our communities and what improvements are needed so we can work together to create community-based solutions that directly serve the needs of our children and youth in Houston, across the Gulf Coast Region, and throughout the state.

**Roundtable topics include:**

- Stress and trauma
- School-based counseling services
- Mental health and trauma training
- Finding resources to access supports
